

Diverse Journeys Picnic Breakfast at the Gardens

Our Community Garden includes plot "owners" who participate in Diverse Journeys. Diverse Journeys services offers adults with disabilities a community day program. The program is funded by the Regional Center; however, funding for extracurricular activities is very limited. Together, several families created a booster club to add special activities twice a month. Recently a very successful picnic breakfast with a visit by Spiderman and Wonder Woman was held at the garden. The group truly appreciates the support of the Gardens and the use of the grills and picnic area.
